Activity Name: Project management and technical support

Activity Category: Project Development

Has Rates and Hours?: Yes

Description: Develop application process and program policies. This includes developing procedures for prioritizing and processing applications; developing a landowner contract; and developing a process for obtaining fair quotes from licensed well sealers.

Cost share distribution to eligible projects will be 50% to 75% of eligible well sealing cost; the proposed cost-share prioritization process percentages will be provided to BWSR for comment and review prior to being adopted by the ACD board.

A landowner well sealing contract will be developed that includes the requirement of evidence of licensed well sealing prior to the distribution of cost share funds.

Promote cost-share funds through targeted outreach to properties in Anoka County DWSMAs that may have unused/unsealed wells. This includes prioritizing the 2,354 properties in DWSMAs that were identified in a 2015 Anoka County study. In the unlikely event that there is insufficient demand within Anoka County DWSMAs, the ACD will open up the cost-share application county-wide, with prioritization of parcels that would be the most likely to contaminate drinking groundwater sources near population centers.

Day to day management of applications, landowner questions, and distribution of cost-share funds. The ACD board will be involved in the approval process for the distribution of cost-share funds.

Key staff include:

Aaron Diehl – Conservation Specialist – MS Env Sci, MBA, 15+ yrs working professionally with natural resources issues that include federal, state, and local review.

Becky Wozney – Wetland Spec. – BS Nat. Res. & Env. Sci. with 20+ yrs conducting wetland delineations, WCA compliance and enforcement, and resource monitoring and inventory.

Kris Larson – Water Resource Technician – BS in Environmental Studies with 5 years of experience of water monitoring, data management and analysis, implementing and

monitoring best management practices, and assisting with state cost-share for well sealing.

Current State Grant	Protecting groundwater quality in Anoka County through target..	\$46,000.00	\$35,435.88	\$10,564.12	12/31/2022	N

Actual Results

2020 Developed the application process and program policies. This includes the development procedures for prioritizing and processing applications; developed a landowner contract; and developed a process for obtaining fair quotes from licensed well sealers along with the overall structure of the program,

2021

-Direct mailing to targeted properties were made to 2,000+ landowners. These mailings were directed using GIS mapping to determine potential areas within DWMSA's that may contain abandoned wells.

-Staff wrote newsletter articles for local papers and websites to promote the well sealing program

-Guests on two local two news programs.

-Flyers and handouts were developed and posted at community centers, church's, grocery stores, etc. in surrounding DWSMA's.

-Partnered with cities to have them promote the well sealing program in their local areas.

IN 2022

2022

Developed targeted mailing lists based on properties located within DWSMA priority areas in Anoka County. Mailed approximately 2,300 promotional outreach letters to local residents.

Activity Name: Supplies

Activity Category: Supplies/Equipment

Has Rates and Hours?: Yes

Description: Materials and supplies integral to program success, including meeting materials, postage, envelopes, and paper for mailings to the 2,354 properties in DWSMAs that were identified in a 2015 Anoka County study. The materials may also be used for strategic outreach opportunities to seal unused/unsealed wells in Anoka County that are located outside of a DWSMA.
